

Bar Guns for Your Business

Custom Designed Systems:

- * Available for Bag-In-Box Juice & Soda Systems
- * Complete systems include all necessary tubing, fittings, regulators, air pumps, racks, etc. for complete installation.
- * You decide the number of products, stations and distance from supply to bar stations.

Features:

- * Precision machined dispenser assemblies.
- * Separate valves for water and syrup provide for ease of service.
- * Easier and simpler to service. No glued or cemented connections.
- * Large soft push activator buttons are color coded, better spaced and easy to read.
- * Dispensers include stainless steel input fittings, hose hanger, drain tube and mounting hardware.
- * Competitively priced.
- * Two water meter adjustment screws allow for 2:1 ratio products to be brixed independent from 4:1 or 5:1 ratios.
