Sea Breeze is using the superior technology of Bunn to dispense shelf-stable liquid coffee concentrates. One simple push or pull can dispense into most cups, carafes, decanters or airpots to fulfill your needs. The Model LCA-2 will dispense approximately 2.5 ounces per second. Another unique feature of the LCA-2 is the hot water tap, located on the front of the dispenser. The water draws directly from the hot water tank, which prevents the chance of flavor interaction. It is great for individual servings of teas, soups or hot chocolate. The LCA-2 is also available in portion control. Electrical: Line Connected 208V/240V, 50/60Hz, 25.8 amps, 6000 Watts. Plumbing: Line should be 3/8" minimum. Dimensions: 12" W x 25" D x 30" H 85 lbs.
